## Skills / Tools

JavaScript, React / Redux, Node.js, styled-components, Sass, LESS, Visual Studio Code, Webpack, Git, Figma

## Experience

**1/2021-Present:** Principal Frontend Software Engineer, Dell Technologies

- Maintaining and updating the Dell Design System website, using React, Next.js, Strapi, and styled-components.
- Coordinate with product designers, UX writers, and other developers to provide a platform to inform, instruct, support, and onboard users of the Dell Design System.
- Fostering a team mindset with a distributed team across the United States and Brazil.
- Created a library of frontend Data Visualization components (framework agnostic) as part of the Dell Design System, and ensuring these components are accessible and inclusive of all users.

**9/2017-1/2021:** Software Engineer - Level 3, Clayton Homes, Maryville, Tennessee

- Collaborate with devs/designers to create web apps using JavaScript, React/Redux, Node.js, and HTML5.
- Define and enforce style guides, coding standards, and best practices for client-side coding. Mentor other devs and act as a liaison between design and development.
- Led efforts to create a React component library using Storybook.js and Styled Components. This npm package and browsable storybook is currently being used across multiple teams.

**7/2016-9/2017:** Front End Engineer, Scripps Networks Interactive, Knoxville, Tennessee

- Worked with a distributed Agile team and Product Design to update/enhance web sites for HGTV, Food Network, Travel Channel, and other lifestyle brands.
- Refactored/improved frontend code sitewide. This included moving several brands to a single platform.
- Focused on optimizing performance of popular brand websites that receive millions of views per week.

**9/2010-6/2016:** Front End Web Developer, Clayton Homes, Maryville, Tennessee

- Developed/maintained hundreds of .net-driven websites for home centers, building facilities, and corporate.
- Mentored developers and taught best practices about HTML, CSS, and JavaScript.
- Led efforts to convert all Clayton home center sites, and the corporate site, to mobile-friendly responsive design, resulting in higher search engine rankings, and a better user experience on mobile devices.

**1/2005-9/2010:** Web Designer, AT&T Internet Operations Group, Atlanta, Georgia

- Designed standards-compliant websites for YP.com customers using Photoshop, HTML and CSS.
- Fulfilled special requests and escalations for higher-profile advertisers.
- Responsible for continuous training/development of 20+ designers from one of AT&T's outside vendors.

**3/2003-1/2005:** Web Designer/Developer, Coolblue Interactive, Atlanta, Georgia

- Created visual design comps for web sites and web-based content management software
- Developed and tested database-driven web applications using PHP and MySQL.
- Guided clients in using Coolblue's Email Marketing Application

## Education

**7/2001-12/2004:** The Art Institute of Atlanta, *Atlanta, Georgia*

Graduated with a **Bachelor of Fine Arts degree in Interactive Media Design**, GPA: 3.8

Best In Show at Graduation Portfolio Show, Perfect Attendance for 12 Consecutive Quarters
